DETAILED ACTION

Claim Objections

1. Claims 1, 6, 11 are objected to because of the following informalities:

Claim 1: A) "the measured value" in line 10 lacks antecedent basis,

B) Perhaps applicant should replace "and " after "the vehicle" in line 4 with --, the interior temperature sensor-- in order to clearly describe the invention,

C) Perhaps applicant should replace "and" after "interior temperature sensor" in line 9 with --, the compensation temperature sensor—in order to clearly describe the invention,

D) Perhaps applicant should replace "thermally decoupled" in line 9 with --thermally insulated--,

F) Perhaps applicant should replace "falsification" in line 10 with --compensation—or -- correction--. Is this a proper interpretation of the invention? Appropriate correction is required.

Claim 6: Perhaps applicant should replace "thermally decoupled" in line 3 with -- thermally insulated--,

Claim 11: "the pins" in line 3-lack antecedent basis.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In this case,

Art Unit: 2859

Claim 1: A) the term "falsification" in line 10 of claim 1 makes the claim language confusing because it is not clear what applicant means.

B) With respect to "particularly" in line 2: A broad range or limitations followed by linking terms, e.g., preferably, maybe, for instance, especially, particularly, and a narrow range or limitation within the broad range or limitations is considered indefinite since the resulting claim does not clearly set forth the metes and bounds of the patent desired.

Claims 2-13 are rejected by virtue of their dependency on claim 1.

Allowable Subject Matter

4. Claims 1-13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
